WELCOME TO EUROLUBE EQUIPMENT

Eurolube is a Swedish brand specializing in the distribution and support of environmentally-friendly products and tailor-made complete and professional solutions for the handling of lubricants and fluids. We provide quality products to partners in more than 40 countries.

Eurolube's greatest strength is our ability to quickly deliver tailor-made solutions. That, simply, is how we contribute to our partners' efficiency and their profitability.

Our vision: Eurolube is dedicated to quality solutions and support for the lubricant and fluid handling sector. We do this by developing, manufacturing and supplying products that pump, measure and dispense lubricants and fluids, and by delivering these solutions to our partners in the most economical and cost-effective manner.

Operation

Eurolube delivers high quality turnkey solutions for professional and environmentally-friendly handling of lubricants and fluids. Our range covers everything from advice to complete customized systems. These include, for example, air-operated pumps and accessories of our own design, and advanced electronic metering and measuring equipment. This means precise control of dosing and flow measurement and, with our NEX-U® fluid management system, easy connection to existing ERP systems. Our aim is to constantly develop our concept of always being able to offer cost effective solutions with cutting edge technology. Eurolube products are used by companies in the automotive workshops, manufacturing, shipping, mining and agriculture sectors.

Commitment and flexibility

We are recognized for our instant support and our comprehensive interpretation of our partners' needs, for fast order acknowledgement and for short lead times. Our expert knowledge of the rules that apply to the installation of equipment, is a strength we pass on to our partners. Reliable lead times, flexibility and total commitment are our trademarks.

The customer is our partner

We always strive for long term business relationships. We therefore feel it is very important for new customers to get to know who we are and how we think just as we always aim to understand our new customers. In plain language, we always invest the time to visit you, to learn about your operation and to establish a person-to-person connection. Interested?

Please contact us to find out more about our opportunities for a winning concept.

ISO CERTIFICATION

We are certified according to ISO 9001 and ISO 14001 which is a confirmation that we have an efficient system for management and control over quality and environmental issues.

NEX·U·®

NEX·U.® FLUID MANAGEMENT SYSTEM

– *Wireless flexibility + Hard-wired back-end reliability*

WHAT IS NEX·U.®?

NEX·U.® provides you with the control and the information you require to make your operation more profitable. You will be able to account for every drop of lubricant and other service fluid used.

On top of this, you will carry an efficient inventory control, with automatic alerts and fluid reordering when needed, eliminating operations downtime.

For almost any lubricant usage or operation size, with today's high cost for these fluids, NEX·U.® quickly pays for itself. Once it is paid for, savings go right to the operation's bottom line in the form of profit, profit previously lost. NEX·U.® adapts to your way of working.

INSTALLATION EXAMPLES

PASSENGER CAR WORKSHOP

TRUCK WORKSHOP

NEX·U.
FLUID MANAGEMENT SYSTEM

NEX-U® is a hybrid system that brings you all the advantages of wireless flexibility and hard-wired reliability

WIRELESS FLEXIBILITY

- Data can be transmitted wirelessly among the different system components, eliminating long and expensive cable runs.
- Easily adds new components when required as your needs grow.
- System uses existing Wi-Fi® networks, simplifying its installation. No need for special, custom made, network components.

HARD-WIRED RELIABILITY

- A constant and reliable power source is always present to power the solenoid valves that control fluid delivery.
- No uncharged batteries to let you down.
- Hard-wired data transmission to avoid interferences and other obstacles which might interfere with wireless data transmission.

WIRELESS SYSTEM USING U-link

STOCK ROOM

NEX-U®
FLUID MANAGEMENT SYSTEM

TYPE
U-net Central processing unit
PART NO.
53802
DATA
<p>Description: U-net is the key NEX-U® component. It controls all the system functions and manages the wired and wireless communication among the NEX-U® components. U-net also includes the U-track software and enables DMS-integration. Communication: Ethernet port (RJ45-port), CAN bus, Wireless (U-link)</p>

TYPE
Virtual keypad
PART NO.
53801
DATA
<p>Description: Virtual Keypad license. Converts any terminal (PC, laptop, tablet or smartphone) into a NEX-U® access Keypad.</p>

TYPE
U-dat system access keypad
PART NO.
<p>1 53821</p> <p>2 53820</p>
DATA
<p>Voltage: 230 V AC</p> <p>1 Description: NEX-U® access keypad with 7" colour screen and QWERTY keypad. Integrated 320W transformer to open a maximum of 8 solenoid valves. Can be used with external RFID-module, printer and barcode reader. Includes integrated RFID-module. Communication: CAN bus</p> <p>2 Description: NEX-U® access keypad with 7" colour screen and QWERTY keypad. Integrated 75W transformer to open a maximum of 2 solenoid valves. Can be used with external RFID-module, printer and barcode reader. Includes integrated RFID-module. Communication: CAN bus</p>

TYPE
NEX-U® Compact
PART NO.
<p>1 53822</p> <p>2 53823</p>
DATA
<p>Voltage: 230 V AC</p> <p>1 Description: Enables full control of transactions and stock level of fluids for smaller workshops. A system based in a special U-dat terminal that is able to control a maximum of 2 dispensing points. Ability to export full reports in CSV format to USB. Includes integrated RFID-module. NEX-U® Compact does not support connection to U-net Pro.</p> <p>2 Description: Enables full control of transactions and stock level of fluids for smaller workshops. A system based in a special U-dat terminal that is able to control a maximum of 8 dispensing points. Ability to export full reports in CSV format to USB. Includes integrated RFID-module. NEX-U® Compact does not support connection to U-net Pro.</p>

TYPE
NEX-U.® Mobile
PART NO.
53824
DATA
<p>Voltage: 230 V AC</p> <p>Description: Enables full control of transactions and stock level of fluids for mobile service trucks. A system based in a special U-dat terminal that is able to control a maximum of 8 dispensing points. Ability to export full reports in CSV format to USB. Includes integrated RFID-module. NEX-U.® Mobile does not support connection to U-net Pro.</p>

TYPE
U-vision
PART NO.
53830
DATA
<p>Description: Hand-held display module to fit an 1/2" control handle. Includes a backlight display to show delivered volume and operation progress. U-vision can be connected to: U-valve, U-meter+, U-count. Communication: Bluetooth®</p>

TYPE
U-vision+
PART NO.
53831
DATA
<p>Description: Hand-held display module with keypad to fit an 1/2" control handle. Ability to start a dispense directly from the hand-held unit. Includes a backlight display to show delivered volume and operation progress. U-vision can be connected to: U-valve, U-meter+, U-count. Communication: Bluetooth®</p>

TYPE
U-count
PART NO.
53836
DATA
<p>Description: U-count is used to control 1 solenoid valve and a U-pulser or external pulse meter. LED display that shows the delivered volume and can be connected to U-vision or U-vision+. Communication: CAN bus, Bluetooth®</p>

DATA	DATA	DATA	DATA
Description: Big remote LED display that shows the delivered volume through U-valve, U-meter, U-meter+. Communication: CAN bus	Voltage: 230 V AC Description: Real-time inventory control, controlling two tanks using digital or analogical level gauges. Solenoid valves control output for pump control and to external warning devices. Two independent graphic level bars and a display to show the inventory available in each tank. Communication: CAN bus. Solenoid valve output 24V DC, max 2 per port.	Voltage: 230 V AC 1 Description: Power supply to a maximum of 2 solenoid valves and other system components. U-power can be connected to: U-valve, U-meter, U-meter+, U-count, U-view, U-connect. Communication: CAN bus 2 Description: Power supply to a maximum of 8 solenoid valves and other system components. U-power can be connected to: U-valve, U-meter, U-meter+, U-count, U-view, U-connect. Communication: CAN bus 3 Description: Power supply to a maximum of 8 solenoid valves and other system components. 3 CAN bus connectors for group division on the communication line. U-power can be connected to: U-valve, U-meter, U-meter+, U-count, U-view, U-connect. Communication: CAN bus	Description: U-connect allows wireless communication via Wi-Fi among the different components of the system which are connected via CAN bus.

TYPE
U-link wireless hand meter
PART NO.
53803
DATA
<p>Description: Digital hand meter with wireless communication to U-Net. Enables monitoring of transactions via U-track. U-link can be integrated with DMS. Includes integrated solenoid valve and RFID-module. Connection: Wireless</p>

TYPE
U-link with outlet hose
PART NO.
<p>1 10522 4 10572 2 10552 5 10591 3 10571</p>
DATA
<p>Capacity: 1 - 20 l/min free flow</p> <p>Maximum working pressure: 7,0 (70) MPa (bar)</p> <p>Accuracy: 0,5 % ±</p> <p>Connection: 1/2" (F) BSP</p> <p>1 Model: NEX-U® U-link Wireless digital hand meter with formable hose, manual non-drip nozzle 1/2" (F) BSP Oil/Glycol</p> <p>2 Model: NEX-U® U-link Wireless digital hand meter with 60° outlet pipe and manual non-drip 1/2" (F) BSP Oil/Glycol</p> <p>3 Model: NEX-U® U-link Wireless digital hand meter with 90° hose and automatic non-drip 1/2" (F) BSP Oil/Glycol</p> <p>4 Model: NEX-U® U-link Wireless digital hand meter with 90° hose and manual non-drip 1/2" (F) BSP Oil/Glycol</p> <p>5 Model: NEX-U® U-link Wireless digital hand meter with 135° hose and automatic non-drip 1/2" (F) BSP Oil/Glycol</p>

TYPE
Mobile oil dispenser with U-link wireless hand meter
PART NO.
117-90
DATA
<p>Description: Mobile oil pump kit designed to meet any needs of effective oil dispensing. Includes: 1:1 oil pump, 3m x 1/2" hose, wireless hose end meter, automatic non-drip nozzle, trolley. Drum NOT included.</p> <p>Maximum air pressure: 1,0 (10) MPa (bar)</p> <p>Pump: B11740</p>

TYPE
NEX-U® Range extender for U-link
PART NO.
53804
DATA
<p>Description: Used to extend the range between the existing wireless connection between U-link and U-net.</p> <p>Voltage: 230 V AC</p>

TYPE
LUBE-Master Integration
PART NO.
53792
DATA
<p>Description: Software to integrate U-Net and U-link into existing LUBE-Master installations. The integration enables you to initiate a dispense from the regular LUBE-Master terminal and then use the U-link to perform the dispense from, for example, a mobile dispensing unit.</p>

TYPE
U-valve
PART NO.
53850
DATA
<p>Description: Combined pulse meter, solenoid valve, screen filter with the electronics required to control the meter. Big LED display showing the dispense point number and delivered volume. Can be connected to U-vision or U-vision+. Communication: CAN bus, Bluetooth®</p> <p>Connection: 1/2" (F)-(F) BSP</p>

117-02
DATA
<p>Description: Complete air operated pump to dispense light lubricating oils in short piped systems. Quiet and double acting operation and easy to fit to drum or IBC tanks, seals in NBR/PU. Max air pr.: 1.0 MPa (150 psi).</p> <p>Includes:</p> <p>1:1 Pump B11741</p> <p>Wall bracket</p> <p>1/4" Filter regulator</p> <p>1,5 m Air line hose</p> <p>2 m Hose for oil</p> <p>3/4" Ball valve</p> <p>1,08 m suction tube c.w. 2 m suction hose.</p>

TYPE
1:1 Mobile oil dispenser for 208 l drum
PART NO.
137-46
DATA
<p>Description: Mobile oil pump kit designed to meet any needs of effective oil dispensing. Includes: 1:1 oil pump, 3m x 1/2" hose, oil gun with digital meter, automatic non-drip nozzle, trolley. Drum NOT included.</p> <p>Maximum air pressure: 1,0 (10) MPa (bar)</p> <p>Pump: B11740</p>

1:1 Drump pump kit for 208 l drum
PART NO.
117-01
DATA
<p>Description: Complete air operated pump to dispense lubricating oils. Quiet and double acting operation and easy to fit to drum. Includes 2" drum adapter, 1/4" filter regulator, 1,5 m air line hose, 1,5 m hose for oil, 3/4" ball valve.</p> <p>Maximum air pressure: 1,0 (10) MPa (bar)</p> <p>Pump: B11740</p> <p>Seals: NBR/PU</p>

TYPE
1:1 Mobile oil dispenser with U-link wireless hand meter
PART NO.
117-90
DATA
<p>Description: Mobile oil pump kit designed to meet any needs of effective oil dispensing. Includes: 1:1 oil pump, 3m x 1/2" hose, wireless hose end meter, automatic non-drip nozzle, trolley. Drum NOT included.</p> <p>Maximum air pressure: 1,0 (10) MPa (bar)</p> <p>Pump: B11740</p>

TYPE
1:1 Oil dispenser with safety trolley
PART NO.
137-57
DATA
<p>Description: Consists of drum trolley 16860, pump B11740, 3 m hose and hose end meter 10371. The drum is placed on an safety trolley which prevents any spillage on the floor or ground. When there is no area to normally park ordinary drum trolleys at the end of the day, this is the ideal solution. Perfect for field service in construction, mining and marine sectors and other sensitive environments.</p>

TYPE
Cam-Lock adapters
PART NO.
1 2357404 2 2357405
DATA
1 Description: Allow to fit a pump horizontally or vertically to grease bags, totes and other type of containers. Fixes to a C115- or C150-series pump body. Standard 3" male cam-lock connection.
2 Description: Allow to fit a pump horizontally or vertically to grease bags, totes and other type of containers. Standard 3" female cam-lock connection.

TYPE
Mobile grease pump hoist for 12-20 kg
PART NO.
26746
DATA
<p>Description: Mobile unit designed for use with hard to pump, sticky and high viscosity greases up to NLGI3. A pneumatic piston elevates the pump for replacing an empty pail. The pneumatic piston also pushes down when the pump is in use.</p> <p>It is ideal for situations where it is important to get all the grease out of the bucket. Applications include expensive grease where complete emptying is essential, dented buckets/drums that cause the follower lid to stick, and easy handling of the grease to avoid debris that can damage the pump or machine. Delivered without pump.</p>

TYPE
Grease pump and hoist
PART NO.
26742
DATA
<p>Ratio: 60:1</p> <p>Pump: 25737</p> <p>Description: Mobile unit designed for use with hard to pump, sticky and high viscosity greases up to NLGI3. TYPE
Pump hoist for lifting eye
PART NO.
26741
DATA
<p>Height: 1630 - 2630 mm</p> <p>Description: Lifts and lowers pumps, making drum changes easier, faster and more efficient. Swings 360° around it's own axis, serving up to three pumps / barrels. Air operated.</p>

TYPE
Pump hoist
PART NO.
26705
DATA
<p>Height: 1630 - 2630 mm</p> <p>Description: The Eurolube Pump Hoist offers better performance, ease of use and safe handling. Compact and robust design. The lift can be rotated, this feature allows 3 grease drums to be in position for quick change to a new grease drum. Robust lever valve for UP/DOWN control of the lift.</p>

TYPE
Single post pump hoist 40:1
PART NO.
257-55
DATA
<p>Maximum air pressure: 1,4 (14) MPa (bar)</p> <p>Pump: 25745</p> <p>Description: Offers better performance, easy use and safe handling.</p> <p>Robust follower plate 550-590mm with rubber blade wiper to ensure positive sealing of greases. Compact and robust design. the lift can be rotated, this feature makes it possible to have 3 grease drums in position, for a quick change to a new grease drum. Robust lever valve for UP/DOWN control of the hoist.</p>

TYPE
Power Ram pump hoist 40:1
PART NO.
257-51
DATA
<p>Description: The power Ram pump hoists offer better performance, easy use and safe handling, powered by Ø80mm twin-post pressure primers. Robust one-piece aluminium follower plate with twin rubber blade wipers to ensure positive sealing of high-viscosity greases. built in automatic low level shut of valve, that prevents dry pumping and protect the pump. pivotable air control box, with two air regulators, one for pump control and one for hoist control. ON/OFF push button for pump control. Robust lever valve for UP/DOWN control of the hoist. Includes: pump, pump hoist, quick coupling, filter regulator, air line hose, grease hose, follower plate.</p> <p>Capacity: 11000 gr/min</p> <p>Air connection: 1/2" (F) BSP</p> <p>Pump: 25746</p>

TYPE
Power Ram hoist without pump
PART NO.
26700
DATA
<p>Description: The Power Ram pump hoist ensures enhanced performance, user-friendly operation, and safety. It features twin Ø80mm cylinders for efficient grease input and a durable aluminium follower plate with dual sealing lips, maintaining cleanliness while handling high-viscosity greases. The standard automatic low-level stop prevents dry pumping, safeguarding the pump. Its swivelling control unit includes built-in regulators—one for pump control and another for hoist control—with ON/OFF buttons for pump operation and a sturdy lever valve for hoist movement.</p>

Lock-on grease quick coupler
PART NO.
26739
DATA
Maximum pressure: 70 (700) MPa (bar)
Connection: 1/8" (F) BSP
Description: Revolutionary grease coupler. Smooth lock-on mechanism that eases grease fitting coupling and uncoupling. This is a durable, jaws-free coupler that includes seven retaining balls, assuring a proper sealing between grease fitting* and grease pump up to a pressure of 700 bar. Store display for countertop placement also available. Place for 10 couplers.

TYPE
Grease fitting rejuvenator
PART NO.
339841
DATA
<p>Description: Simply fill the tool with a light oil and with a few taps the joint will open. The grease fitting rejuvenator will allow a clogged grease fitting and /or joint to take on grease by injecting a light viscosity oil into the grease joint via the grease fitting, thus breaking up and removing any dirt, rust or debris. The purpose of this tool is to free up the joint and the fitting enabling them to be greased. Once the tool is installed onto the grease fitting, only a tapping of the piston is required to open a joint.</p>

Waste oil equipment

Waste oil pumps 72

Equipment for pits 72

Mobile waste oil drainers with bowl 74

Waste oil handling 79

TYPE
Waste oil pump 1:1
PART NO.

Connection: 1/4" (F) BSP

TYPE
Evacuation pump for mobile drainers
PART NO.
① 317-44
② 317-44SP
DATA
Maximum air pressure: 1,0 (10) MPa (bar)
① Description: Discharge pump to extract waste oil and antifreeze from any of our mobile drainers. Do not use with flammable or corrosive fluids. Includes: Pump B11741, wall bracket, 1/4" filter regulator, 1,5m air line hose, 1,5m discharge hose, 3/4" ball valve, 2m suction hose c.w. quick coupler, suction filter.
Pump: B11741 (1:1)
② Description: Discharge pump to extract waste oil and antifreeze from any of our mobile drainers. Do not use with flammable or corrosive fluids. Includes: Pump 15831, wall bracket, 1/4" filter regulator, 1,5m air line hose, 1,5m discharge hose, 3/4" ball valve, 2m Suction hose c.w. quick coupler, suction filter.
Pump: 15831 (5:1)

TYPE
Variable waste oil arm for pits
PART NO.
① 317-60
② 317-65
DATA
Maximum air pressure: 0,7 (7) MPa (bar)
Pump: 15831
Volume: 45 l
Hose length: 2 m
Filtration: 600 µm
① Description: Ideal solution for quick and efficient waste oil draining in pits. The waste oil is pumped directly to the tank from the collection bowl which is mounted on a rail and can be used along the entire length of the pit. Controls for pump speed and arm up/down are mounted on the arm.
Media: Waste oil
② Description: Ideal solution for quick and efficient antifreeze draining in pits. The used antifreeze is pumped directly to the tank from the collection bowl which is mounted on a rail and can be used along the entire length of the pit. Controls for pump speed and arm up/down are mounted on the arm.
Media: Glycol

TYPE
Embedded bracket for service tower
PART NO.
17776
DATA
Description: Concrete fastener for casting into floors, provides a supreme mounting platform for the 17875/17877 service stand. The frame design provides clearance for running piping, hoses and ventilation ducts up through the service stand.

TYPE
Service stand
PART NO.
① 17865 ② 17869
DATA
① Description: Service stand for up to 6 Hose Reels. Possibility to fit a 50kg Grease drum with pump under the drip tray. Fits hose reels series: S10, S15, T15 & CC15. Full size: H2600 x W1540 x D760 mm. Nuts for Hose Reels included. ② Description: Service stand for up to 6 Hose Reels. Possibility to fit a 50kg Grease drum with pump under the drip tray. Fits all our Hose Reels, including C15 and T20. Full size: H2600 x W1970 x D760 mm. Nuts for hose reels included.

TYPE
Height extension kit for service stand
PART NO.
17864
DATA
<p>Description: In workshops with high vehicles it's an advantage that hose reels are higher up. With our height adapter, the total height of Service stands 17865/69 is 3,1m.</p> <p>Height: 500 mm</p>

TYPE
Additional brackets for service stand
PART NO.
<p>① 17861</p> <p>② 17863</p>
DATA
<p>① Description: With this console, two additional hose reels can be mounted on 17865 and 17869. Placed on either side of service stand.</p> <p>Length: 555 mm</p> <p>② Description: With this console, 1 pc Exhaust Reels can be mounted on 17865 and 17869. Placed on either side of service stand.</p> <p>Length: 1110 mm</p>

TYPE
Service stand for 3 reels
PART NO.
17866
DATA
<p>Description: Service stand for up to 3 hose reels. Includes drip tray. Fits hose reels series: S10, S15, T15 and CC15. Full size: H2250 x W1200 x D350 mm. Nuts for hose reels included.</p>

TYPE
Service stand for 5 reels
PART NO.
17867
DATA
<p>Description: Service stand for up to 5 hose reels. Includes drip tray. Fits hose reels series: S10, S15, T15 & CC15. Full size: H2250 x W1750 x D350 mm. Nuts for hose reels included.</p>

TYPE
Reel post
PART NO.
17862
DATA
<p>Description: Column for mounting 2 Hose reels. Size: H2400 x W400 x D320 mm. Pre-drilled holes for T15, S10, S15, C15 and CC15 reels.</p>

TYPE
Pivoting wall bracket for S10, S15, CC15, C15 & T15-ser.
PART NO.
17751
DATA
<p>Description: The reels can be turned up to 145° by using the pivoted bracket. Fits our Reels: S10, S15, CC15, C15 and T15.</p>

TYPE
IBC bracket for pump and reel
PART NO.
1069237
DATA
<p>Description: Bracket for installation of our air operated pumps and hose reels on an IBC tank. Fits our Reels: S10, S15, CC15, C15 and T15.</p> <p>Connection: 2" (F) BSP</p>

TYPE
Mounting bracket
PART NO.

DATA
Description: Used when mounting a hose reel in a cabinet . Max. hose diameter Ø 42 mm.
Dimension: 110x110 mm

EUROLUBE LUBRICATION EQUIPMENT

Drum handling

TYPE
Trolley for 208 l drums
PART NO.
<ul style="list-style-type: none"> 1 26720 2 2068734 3 2068735
DATA
<p>1 Description: Trolley suitable for 208 l drums, designed for mobile oil dispensing, mobile grease kits, transport of drums etc. Pump and hose reel can be mounted by use of our brackets. With two large roller bearing wheels Ø200mm and one double braked castor wheel.</p> <p>2 Description: Easy to fit our bracket 16730 and electrical oil pumps.</p> <p>3 Description: For easy assembly of our hose reels 10-15 series.</p>

TYPE
Heavy duty trolley for 208 l drums
PART NO.
<ul style="list-style-type: none"> 1 26757 2 26747
DATA
<p>1 Description: Our universal trolleys suitable for 20-208 l drums are designed for mobile oil dispensing, mobile grease kits, transport of drums etc. Pump and hose reel can be mounted by use of our brackets. With two large roller bearing wheels Ø260mm and one double braked castor wheel. Accessories: Hose reel bracket 1357213</p> <p>2 Description: Heavy duty trolley with two Ø 260 mm wheels and one solid rubber swivelling wheel with brake. Includes an adjustable chain for securing the drum and a bracket mounted on the handle for fixing an air operated pump. A hose reel can also be mounted using optional bracket (1357213)</p>

TYPE
Trolley for 50-60 l drums
PART NO.
1003-100
DATA
<p>Description: Sturdy trolley suitable for 50-60L drum designed for mobile oil dispensing, mobile grease kits, transport of drums etc.</p> <p>Solid construction and very easy to equip to a complete dispenser for any need. Heavy duty trolley for 50-60L drums with two large wheels and two castor wheels.</p>

TYPE
Trolley for 20-60 l drums
PART NO.
<ul style="list-style-type: none"> 1 0985-100 2 26755
DATA
<p>1 Description: Solid construction and very easy to equip to a complete dispenser for any need. With two wheels and drum securing chain.</p> <p>2 Description: Compact construction and very easy to equip to a complete dispenser for any need. Sturdy locking device for oil and grease drums. Holder for hose included.</p>

TYPE
Spill safe drum trolley
PART NO.
1 16860 3 16862 2 16861 4 137-55
DATA
<p>1 Description: Drum trolley (26720) with three wheels, 2 large Ø200 mm and one support wheel Ø100 mm, which is equipped with a brake. With spill containment, suitable for all sizes and types of drum, up to 208 l.</p> <p>2 Description: Drum trolley (28646) Heavy duty. With 3 wheels, 2 large tyres Ø260 mm and one support wheel Ø150 mm, equipped with a brake. With spill containment, suitable for all sizes and types of drum, up to 208 l.</p> <p>3 Description: Drum trolley (26747) with 3 wheels, 2 large hard wheels Ø260 mm and one support wheel Ø150 mm, equipped with a brake. With spill containment, suitable for all sizes and types of drum, up to 208 l.</p> <p>4 Description: Drum bund for mounting on existing trolley. If the drum were to start leaking, there will be no spillage on the floor or ground. When there is no area to normally park ordinary drum trolleys at the end of the day, this is the ideal solution. For 26720, 26757 and 26747. Drilling during assembly is required.</p>

TYPE
Drum dolly

Products

- ▶ NEX-U-®
- ▶ LUBE-Master
- ▶ Oil equipment
- ▶ Grease equipment
- ▶ Diaphragm pumps
- ▶ Waste oil equipment
- ▶ Multi-Fluid equipment
- ▶ Equipment for AdBlue®
- ▶ Equipment for diesel
- ▶ Compressed air
- ▶ Hose & cable reels
- ▶ Drum handling

One of the cornerstones of Eurolube service is instant support in whatever you may require.

TECHNICAL DOCUMENTS

On our website you will be able to easily explore our full product range with detailed photographs, descriptions in English, Swedish and German, individual product data, downloads of manuals and leaflets, and the ability to request quotations on particular products.

PUMP SELECTION GUIDE

We have also developed a tool to aid you in selecting the correct pump for the task. Using our pump selection guide you simply select the fluid to be pumped, and it will tell you which materials are compatible.

ONLINE ORDERING

For our registered distributors, we offer the functionality to log in and place orders directly on our website. When you are logged in as a distributor, you can access e.g.

- Prices and discounts
- Order history
- Downloads for LUBE-Master and related systems
- See precise stock levels

EUROLUBE ACADEMY

Eurolube is proud to announce the launch of the new Eurolube Academy, a complete product training environment complete with a fully equipped NEX-U-® fluid management system. It's designed to train our distributors and end users in the professional handling and use of Eurolube equipment and installation technology. The training focuses on the environment, safety, economy and practical handling of fluid systems.

Contact us if you are interested in learning more.
